

## **Assignment 6.3 – Code Reviews**

### **Instructions**

Write a one-page summary of your findings on code review best practices and provided a detailed explanation of the process, options, effectiveness, and potential dangers for not doing them

**The essay must be substantive, contain at least two (2) secondary sources (scholarly journals, published books, etc.), and written in APA format.**

**There should be an introduction, a conclusion, and a developed body (generally at least a few paragraphs – at least 500 words). Points will be deducted for not meeting the specified word count requirements. Reference lists and in-text citations do not count toward the word count requirements.**
